## GALICIAN FORTRESS TAKEN BY RUSSIANS

(By Associated Press.)  
PETROGRAD, July 11.—Pursuit of the enemy in Galicia continues. Capture of Halicz, the strategic key to Lemberg, is confirmed by a telegram. The Russians took many prisoners and over thirty guns.

In addition to capturing Halicz the Russians took 2000 prisoners, 30 guns and advanced westward to the left bank of the Lomnica river and pressed forward on the Bogoridchan-Zolotvin front.

The Russians reached the Posiecz-Lesivka-Kosmacz line. In the fighting between Sunday and Tuesday in the direction of Dolina the Russians took over ten thousand prisoners and eighty guns.

(By Associated Press.)

Russia's armies have broken the Austro-German line in the Halicz-Stanislaw sector, one of the most important on the eastern front, and the Russian advance continues.

The Austro-German forces already have withdrawn beyond the Lomnica river, about ten miles west of Jezupel, which was occupied Sunday by the Russians under General Korniloff. The Russians have taken four

more villages and increased their captures of prisoners more than one thousand. Seven more field guns and other war material also fell into Russian hands.

West of Stanislaw towards Kolusz and Dolina, the Russians have penetrated the Teutonic lines to a depth of nearly seven miles, and between Stanislaw and Halicz they have widened their wedge. In their retirement, apparently made hastily from the large amount of guns and military stores captured by the Russians, the Austro-Germans failed to make a stand at two rivers, the Lukovitz and the Lukwa. It is probably they will entrench on the west bank of the Lomnica.

A stand west of the Lomnica, however, hardly will prevent the forced evacuation of Halicz, the strategic key to Lemberg, as the Russians are within less than eight miles of Halicz on three sides and only one avenue of retreat toward Lemberg is left open, that being the Dniester and the Lipova rivers.

The evacuation of Halicz would make a retreat from the Brzezany-Zeloff-Brody line by the Austrians and Germans almost a necessity.

## ATTACK ON THE CHANCELLOR IN THE REICHSTAG

MAY RESULT IN DECLARATION THAT THIS IS NOT A WAR OF CONQUEST

(By Associated Press.)  
COPENHAGEN, July 11.—According to reports, Dr. Gustav Stresemann, national liberal, attacked the chancellor sharply yesterday, saying he has no definite program of foreign affairs. The chancellor retorted by saying he was forced to look to all sides for support because the reichstag offered him no stable majority. He expressed readiness to carry through the necessary internal reform.

The afternoon papers generally assumed that an agreement of all parties except the conservatives and extreme socialists had been reached by a joint declaration to the reichstag on peace terms and internal reforms. This would contain a reiteration of the chancellor's announcement that Germany's purpose in the war is not conquest, but defense and independence of territorial integrity and expressing readiness to conclude peace on that basis with a provision rejecting all designs aiming at an economic boycott, or continuance of international hostility after the war.

(By Associated Press.)  
WASHINGTON, July 11.—Germany's latest political difficulties are regarded here as due largely to internal problems, probably of a transitory nature. The dismissal of Zimmermann or even the chancellor would be considered only a surface movement, for not until the great army general staff itself is reached will the real crust of German militarism be broken. Austria's influence is more and more insistent toward a liberal peace.

(By Associated Press.)  
AMSTERDAM, July 11.—The chancellor declined to make known to the reichstag main committee the proceedings of the crown council on which there is speculation. The committee then decided to adjourn.

VON HOLLWEG AGREES TO CHANGES IN THE PRUSSIAN MINISTRY

(By Associated Press.)

In addition, five members of the Prussian cabinet will be asked to resign.

## HOTTEST DAY OF YEAR IN TONOPAH

This is the hottest day of the year, with the mercury standing in the U. S. weather station at 94 at 2 o'clock this afternoon, and growing hotter. At any rate the reading at 2 o'clock equals the highest record for Tonopah, which was recorded only on four other days. These were July 29, 1908; August 2, 1908; July 13, 1909; May 31, 1910, and August 5, 1914.

A reading of 94 in the protected observatory of the government equals the sensible temperature of 101 in the shade on Main street, where the glare of the sun would be added to the actual heat.

The report in the form of a letter to the president was issued through the public information committee,

## Guards Are On Duty At Every Station To Stop Landing

(By Associated Press.)  
JEROME, Ariz., July 11.—"The reign of the Industrial Workers of the World in Jerome is at an end," said Mayor J. J. Cam yesterday, as he stood in the railroad yards and watched two cattle cars loaded with men disappear in the distance.

There were 67 men in the cars, all reputed to be members of the Industrial Workers of the World, and 50 armed citizens accompanied them to see that they did not come back. The cars were hooked up to a locomotive and the short train was run as an "extra." Its destination being Jerome Junction, 27 miles away.

Deportation of the men came after a drive this morning in which hundreds of miners and other citizens, all armed, participated with the object of "cleaning up" the town. All of the men were considered by Jerome city officials to be undesirable, because of a strike called in the copper district by the metal

miners' branch of the Industrial Workers of the World which was repudiated by the International Union of Mine, Mill and Smelter Workers.

Many men had heard of the "drive" and left Jerome early this morning. When the men were placed in the cattle cars they were given plenty of drinking water, but nothing to eat. As the train pulled out several shouted at the citizens: "We'll come back." But to this Mayor Cam only smiled.

Afterwards he remarked: "Jerome citizens have demonstrated that they know how to deal effectively with an undesirable element."

(By Associated Press.)  
NEEDLES, Cal., July 11.—Sixty-three men deported from Jerome as Industrial Workers were sent away in the railway coach in which they arrived. Citizens with sawed-off

shotguns met the train and District Attorney Duckworth of San Bernardino county, notified the Santa Fe not to bring the car into California. Two men and one woman in the party escaped from the car here.

(By Associated Press.)  
KINGMAN, Ariz., July 11.—The Industrial Workers sent from Needles back to Arizona arrived and left the train. Citizens are considering forcing them to leave. Forty escaped and others rounded up at the courthouse demanded food. Home guards are patrolling the town.

The sheriff telegraphed Governor Campbell at Jerome asking what disposition to make of the remaining 42 prisoners. Citizens held a mass meeting to decide on something. The Industrial Workers asked to be returned to Jerome.

(By Associated Press.)  
GLOBE, Ariz., July 11.—Settlement of the strike seems remote.

(By Associated Press.)  
SAN BERNARDINO, July 11.—Appeals have been sent to Governor Campbell and Governor Stephens by District Attorney Duckworth to stop the deportation of Industrial Workers into California.
